DETAILED ACTION

This office action is in response to the election, received 3/4/05, in which applicant elected group I, claims 39-48, with traverse.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention: The various distinct groups from among those instantly claimed- see, e.g., claims 39 and 42.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (select one particular active compound from among those instantly claimed- e.g., in claim 1 and 42 select an active compound from a cytostatic agent, a cytokine, an immunosuppressive agent, a virostatic agent, an antirheumatic agent, an analgesic, an anti-inflammatory agent, an antibiotic, an antimicrobial agent, a signal transduction inhibitor, an angiogenesis inhibitor, a protease inhibitor, anthracyclines, nitrogen mustard derivatives, alkylating agents, purine or pyrimidine antagonists, folic acid antagonists, taxanes, camptothecins, podophyllotoxin derivatives, vinca alkaloids, calicheamicins, maytansinoids or cis-configured platinum (II) complexes and further selecting one compound from the elected active compound group. Further, in claim 1, select one particular covalently protein binding molecular residue from among those instantly claimed- e.g., in claim 1 select a covalently protein binding molecular residue from maleimide, haloacetamide, haloacetate, pyridylthio, N-hydroxysuccinimide ester, isothiocyanate, disulphide, vinylcarbonyl, aziridine, or acetylene) for prosecution on the merits to which the claims shall be restricted if no

generic claim is finally held to be allowable. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy Teller whose telephone number is 571-272-0971. The examiner can normally be reached on Monday-Friday from 5:30 am to 2:00 pm..
